Description of the Planned Network Change(s):

The CONSOLIDATED COMM OF NO. NEW ENGLAND-NH, LLC (OCN 5113) Pelham DMS10 Switch PLHMNHBRDS0 and MNCHNHCO04T, located at 58 OLD BRIDGE ST N, PELHAM NH 03076, will be retired and removed from the network after all traffic served by this switch is migrated to the CONSOLIDATED COMM OF NO. NEW ENGLAND-NH, LLC Pelham Ribbon C20 PLHMNHBRPS0 located at 58 OLD BRIDGE ST N, PELHAM NH 03076. All traffic to be migrated includes but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), Intra-LATA, Local, wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers that have trunking to need to update records of trunk groups currently terminating to the Pelham DMS10 to reflect the move to the Pelham POI PLHMNHRPS0. Carriers that are code holders for access connectivity in the Pelham DMS10 Switch will be required to rehome the codes to the Pelham POI PLHMNHRPS0 once the switch migration is complete.

ASRs for the Pelham POI must be received in order to make changes to records. All traffic for these trunk groups will be migrated to the Pelham Ribbon C20. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Pelham DMS10 Switch (on or after **09/30/2026**). This will serve as a guide for interconnecting companies to update their records reflecting the new CLLI and switch type.
